- The honor of being the charity of choice for Emirates Team New Zealand and the opportunities for fundraising and exposure this relationship brings,
- The success of the Fulton Hogan MND New Zealand Support Fund with large numbers of families receiving this additional support since its launch in August 2019,
- The Hui hosted at Parliament in September 2019 which was attended by clinicians and ministers and the subsequent formation of the clinical working group who are developing national guidelines to improve better MND care nationwide,
- The inaugural MND Research Conference in December where we hosted world leaders in MND research pin Auckland which provided incredible insights, invaluable contacts and a lot of hope to all in the room.

Caron spoke about the disappointment of the small amount of Government funding we receive (which only covered 5% of costs in the previous year) remaining the same as it has for many years when the contract was rolled over this year despite a strong submission from the CEO.

She went on the describe the rapid changes we had to undertake in response to the COVID-19 pandemic. She acknowledged the remarkable effort of the whole team to work together swiftly to adapt our services and continue to provide our vital service through these difficult and uncertain times. Caron thanked the team on behalf of National Council.

A number of additional, individual thank yous were made to,

- Emirates Team New Zealand and Fulton Hogan for their ongoing support
- Our dedicated support team who do a very difficult job, travelling all over the country doing their utmost to help people with MND and their families and the amazing way they adapted through changes in alert levels,
- Claire Reilly (MND Community & Research Advisor) for her enormous contribution especially on the research strategy, hui, conference and clinical working group,

# 5. Presentation of Annual Accounts and Audit Report 2019-20

Treasurer Lucy Haberfield presented the annual accounts, reporting a pleasing result for 2019-20.

MND New Zealand are heavily reliant on grants, donations and fundraising which made up the bulk of our income for the year. \$1.3M out of a total \$1.4M. We received \$74K in funding from Government and accessed the wage subsidy scheme during the COVID-19 lockdown.

Providing support and advocacy to people with MND and their families is by far our largest financial commitment, but we aim to keep contributing to the growing body of MND research. We can only do this through raising awareness and increasing stakeholder engagement.

Costs are managed very carefully with core people costs at \$749K, fundraising \$69K and research \$61K for the year. Overall surplus was \$247K with underlying administrative costs at 21% of total revenue.

The balance sheet remains strong at \$1.2M and funds invested have increased over the year.

The accounts were **approved.** 

Moved: Lucy Haberfield Seconded: Dave Waugh

The **Subscription Levy** for the 2020-21 year will remain at \$0.

- Creation of a new website,

- Re-engaging with the Ministry of Health and Government on increasing funding and support,
- A huge focus on fundraising and growing our team of supporters, fundraisers, donors and volunteers.
